Dear Sir,

I am writing to express my interest in the Junior Web Developer (Intern) position at your company. During my internship from June 2025 to August 2025, I gained valuable experience assisting senior developers in building and enhancing web application features. This opportunity allowed me to apply my skills in a real-world environment and work collaboratively within a development team to achieve project goals.

Throughout my internship, I converted website designs into responsive and functional code using HTML, CSS, and JavaScript, ensuring the websites were user-friendly across different devices. I also conducted API testing and supported debugging efforts to identify and resolve software issues, contributing to smoother and more reliable web applications. These hands-on experiences deepened my understanding of front-end development and coding standards.

I actively participated in code reviews to maintain high-quality code and adhere to best practices, which improved my attention to detail and coding discipline. I am confident that my technical skills, coupled with my eagerness to learn and contribute, make me a strong candidate for this role.

I am willing to work as an intern without any charges or salary to gain further experience and contribute meaningfully to your team. Thank you for considering my application. I look forward to the opportunity to discuss how I can support your development projects.

Sincerely,

Pyae Bhone Khant
